Letter of Comment No. 10 File Reference No. 3-20E Date Received: 9/26/13

portion of the original PV is now a separate project and that a proposed recognition Concepts Statement will be issued for comment at a later date. In our comment letter on the original PV, we recommended that the Board align the issuance of the next due process document relating to recognition with a future due process document relating to the reexamination of the financial reporting model (i.e., the Statement 34 reexamination). We continue to believe that such an approach will greatly assist constituents in understanding how any proposed recognition concepts would be operationalized. Without such an approach, we continue to be concerned that those commenting on a future recognition ED will do so without truly understanding the Board's intent and the resulting changes in accounting and financial reporting that will have to occur after a Concepts Statement is issued.
