Accounting Standards Board
401 Merritt 7, PO Box 5116
Norwalk, CT 06856-5116

Dear Director of Research and Technical Activities :

As an educator with Natomas Unified School District/County Office of Education, I am writing in opposition to the proposed transfer of the California State Teachers' Retirement System (CalSTRS) unfunded pension obligation from the State of California's financial statements to that of the Local Education Agencies (LEAs).

The draft proposal includes provisions that school districts recognize on their balance sheets each employer's proportional share of the CalSTRS total pension liability. It's estimated that the debt transfer would be approximately \$8,000 per student. This is a debt that would be on school districts' balance sheets and a debt that is not within their ability to control.

Our Board has shown extreme fiscal irresponsibility and lack of oversight. I can't imagine the financial mayhem this would add to our district's woes. How would this be good for kids? Isn't that what should drive education decisions?

For these reasons, I respectfully request that California school districts not be required to include recognition of any California State Teachers' Retirement System unfunded actuarial liability on their balance sheets.

Sincerely,

Jill Crawford
