“Still, even though the proposed rule would lift the window shades just a little, any sunlight is an improvement.

That’s where you come in. The GASB is inviting comment on the proposed rule from now through January. This is your chance to not just support the rule as proposed but also demand a much broader one. Tell the board you want disclosure of all state and local subsidies to businesses, that you want the recipients and their brokers fully identified along with any fees paid, any campaign contributions by the companies and brokers and a rigorous accounting of how many jobs were added, if any. And tell the GASB that you want disclosures to cover the entire period of each deal as well as annual snapshots.”

I agree with this article. Please approve broad disclosure of all state and local subsidies to business, list all recipients and their brokers...etc .etc..

Sincerely,

Mike McVay
