Subject: rule change

I just learned that a proposed rule change will allow me to determine how much money is actually subsidizing corporations and probably with my tax dollars! Such disclosure is long overdue. I absolutely am in favor of such disclosure immediately.

Here are some additional comments with regard to the proposed rule.

I want an even broader disclosure to be put in place.

I want disclosure of all state and local subsidies to businesses, I want the recipients and their brokers fully identified along with any fees paid, any campaign contributions by the companies and brokers and a rigorous accounting of how many jobs were added, if any. And I want disclosures to cover the entire period of each deal as well as annual snapshots. With these items put in place, then I will feel secure that all knowledge I need to have will be easily obtained.

thank you,
