Subject: Exposure Draft, Tax Abatement Disclosures

To: Director of Research and Technical Activities, Project No.19-20E

I fully support the adoption of the Tax Abatement Disclosures language as written in the Exposure Draft released October 20, 2014. I suspect that subsequent to adoption of that language in a Government Accounting Standard, we'll all end up agreeing that certain refinements should be made, but this is a very, very good first attempt and we should proceed with it as soon as possible.
