Dear Madam/Sir,

I am writing to encourage you in the strongest terms to support Rule submitted provisionally, whilst committing to a vast broadening of the Rule in future. I believe the fullest possible disclosure of information and identities relating to local and state subsidies is our right as citizens as well as necessary to the functioning of a sane economy. In addition, I encourage you to support disclosure over the entire period of each subsidy, as well as annualized disclosure.

Thank you for your attention to this matter,

Laurence V. Peterson
