Subject: Tax Abatement Disclosure proposal

Dear Sir/Madam:

As a taxpayer and individual retirement investor, I support the GASB proposal dated October 20, 2014 for tax abatement disclosures.

Transparent disclosure of tax abatement data will inform public policy debates, and provide vital macroeconomic data that will aid the individual investor in discerning the current economic climate.

I urge you to implement the proposed disclosure changes.

Sincerely,

C. Richard Fisel

Albuquerque, New Mexico
