Attention: Government Accounting Standards Board

I am very much in favor of people knowing more about local and state subsidies to corporations. Citizens have a right to know where their tax dollars are going, particularly when they are being used to subsidize wealthy individuals and corporations. Transfer of wealth from the middle class to the wealthy is destroying our country. It is a case of parasites becoming so greedy and numerous that they are destroying their host.

I'd like to see the practice of corporations covertly taxing their workers also included in Project 19-20E.

Thank you for the initiative you are taking on this issue.
