Subject: Corporate Welfare

Dear GASB,

Per the Al Jazeera America article posted online Nov 12th 2014, I'm writing in support of the full disclosure of the following: all state and local subsidies to businesses; recipients that received these subsidies, their brokers and any fees paid; campaign contributions by these companies and brokers; and to what extent job creation (if any) has taken place. Moreover, I'd like these disclosures to cover the entire period of each deal as well as annual snapshots. Corporate welfare is a huge problem, and I find the reasons that companies are given these subsidies/opportunities/breaks to be quite disingenuous and harmful to our economy, health and wellbeing.

Sincerely,

Lola Malone
