Subject: Proposed Rule on Disclosure on tax subsidies for corporations

I believe the proposed rule that would require disclosure of the net total tax abatement given to corporations does not go far enough. I strongly support disclosure of all state and local subsidies made to businesses be made available to the PUBLIC. I support naming the recipients of the tax give away, their brokers fully identified along with any fees paid and any campaign contributions by the companies and brokers. I support a rigorous accounting of how many jobs were added, if any. The public is entitled to full disclosures that covers the entire period of each deal as well as annual snapshots.
