Good Afternoon,

I am writing in response to an article in Al Jazeera America and to ask for disclosure of all state and local subsidies to businesses. I think that this is a great idea. I also think that it doesn't have a snowballs chance in hell of going anywhere but ever the optimist...

I also would want the recipients and their brokers fully identified along with any fees paid and any campaign contributions by the companies and brokers. And a rigorous accounting of how many jobs were added, if any as a result of these tax subsidies. And it would be helpful if these disclosures would cover the entire period of each deal as well as annual snapshots.

There has to be some accountability or these breaks (gifts) should not be given.

Also, why hasn't this story been sent to every outlet on the web? You guys need more exposure.
