To whom it may concern,

I am writing in support of a proposed GASB rule (project 19-20E) requiring state and local governments to disclose the total amount of property tax and other abatements in any year. In addition to this modest rule, I would like full disclosure of all state and local subsidies to businesses, that the recipients and their brokers be fully identified along with any fees paid, a description of any campaign contributions by the companies and brokers and a rigorous accounting of how many jobs were added, and that the disclosures cover the entire period of each deal as well as annual snapshots.

Best regards,
