I am in support the rule as proposed but also demand a much broader one. Kindly include disclosure of all state and local subsidies to businesses, along with identification of the recipients and their brokers disclosing:

- any fees paid,
- any campaign contributions by the companies and brokers made to authorities granting abatement and exceptions, and
- a rigorous accounting of how many jobs were added, if any.

Even more helpful, the public disclosure should cover the entire period of each deal as well as these annual snapshots.

Thank you,
Dudley Mulcahy,
Chestnut Hill, MA
