

Director of Research and Technical Activities,

Thank you for the opportunity to comment on Project Nos. 3-20 and 3-25.

To the core issue -- people, politicians and policy or in summation: abuse of power ... because they can.

Given the current inability of votes to remove said policy politicians, perhaps a more drastic violent approach is forthcoming? Perhaps, theoretically writing, their demise of their pensions, health care, perks and/or their lives is the foreseeable?

Historically reflecting, no one has ever gotten so much without backlash. Some were beheaded, some shot, others exiled.

Given the volume of gun and ammunition sales of the last year is an indication of mounting frustration. When the SLG begin to fail resorting to increasing traditional revenue streams such as taxes from gasoline to property without considering spending cuts that are not sustainable in the current and foreseeable time period, said politician policy makers are at risk.

Do take a page from history and reflect on one's personal and family security. Nothing lasts forever.
